CHROMATIC
PNEUMATICS
A VISUAL GLOSSARY
NotebookLM

BICOLOR
A dual-tone aesthetic defining the volumetric identity through high-contrast saturation.

NotebookLM

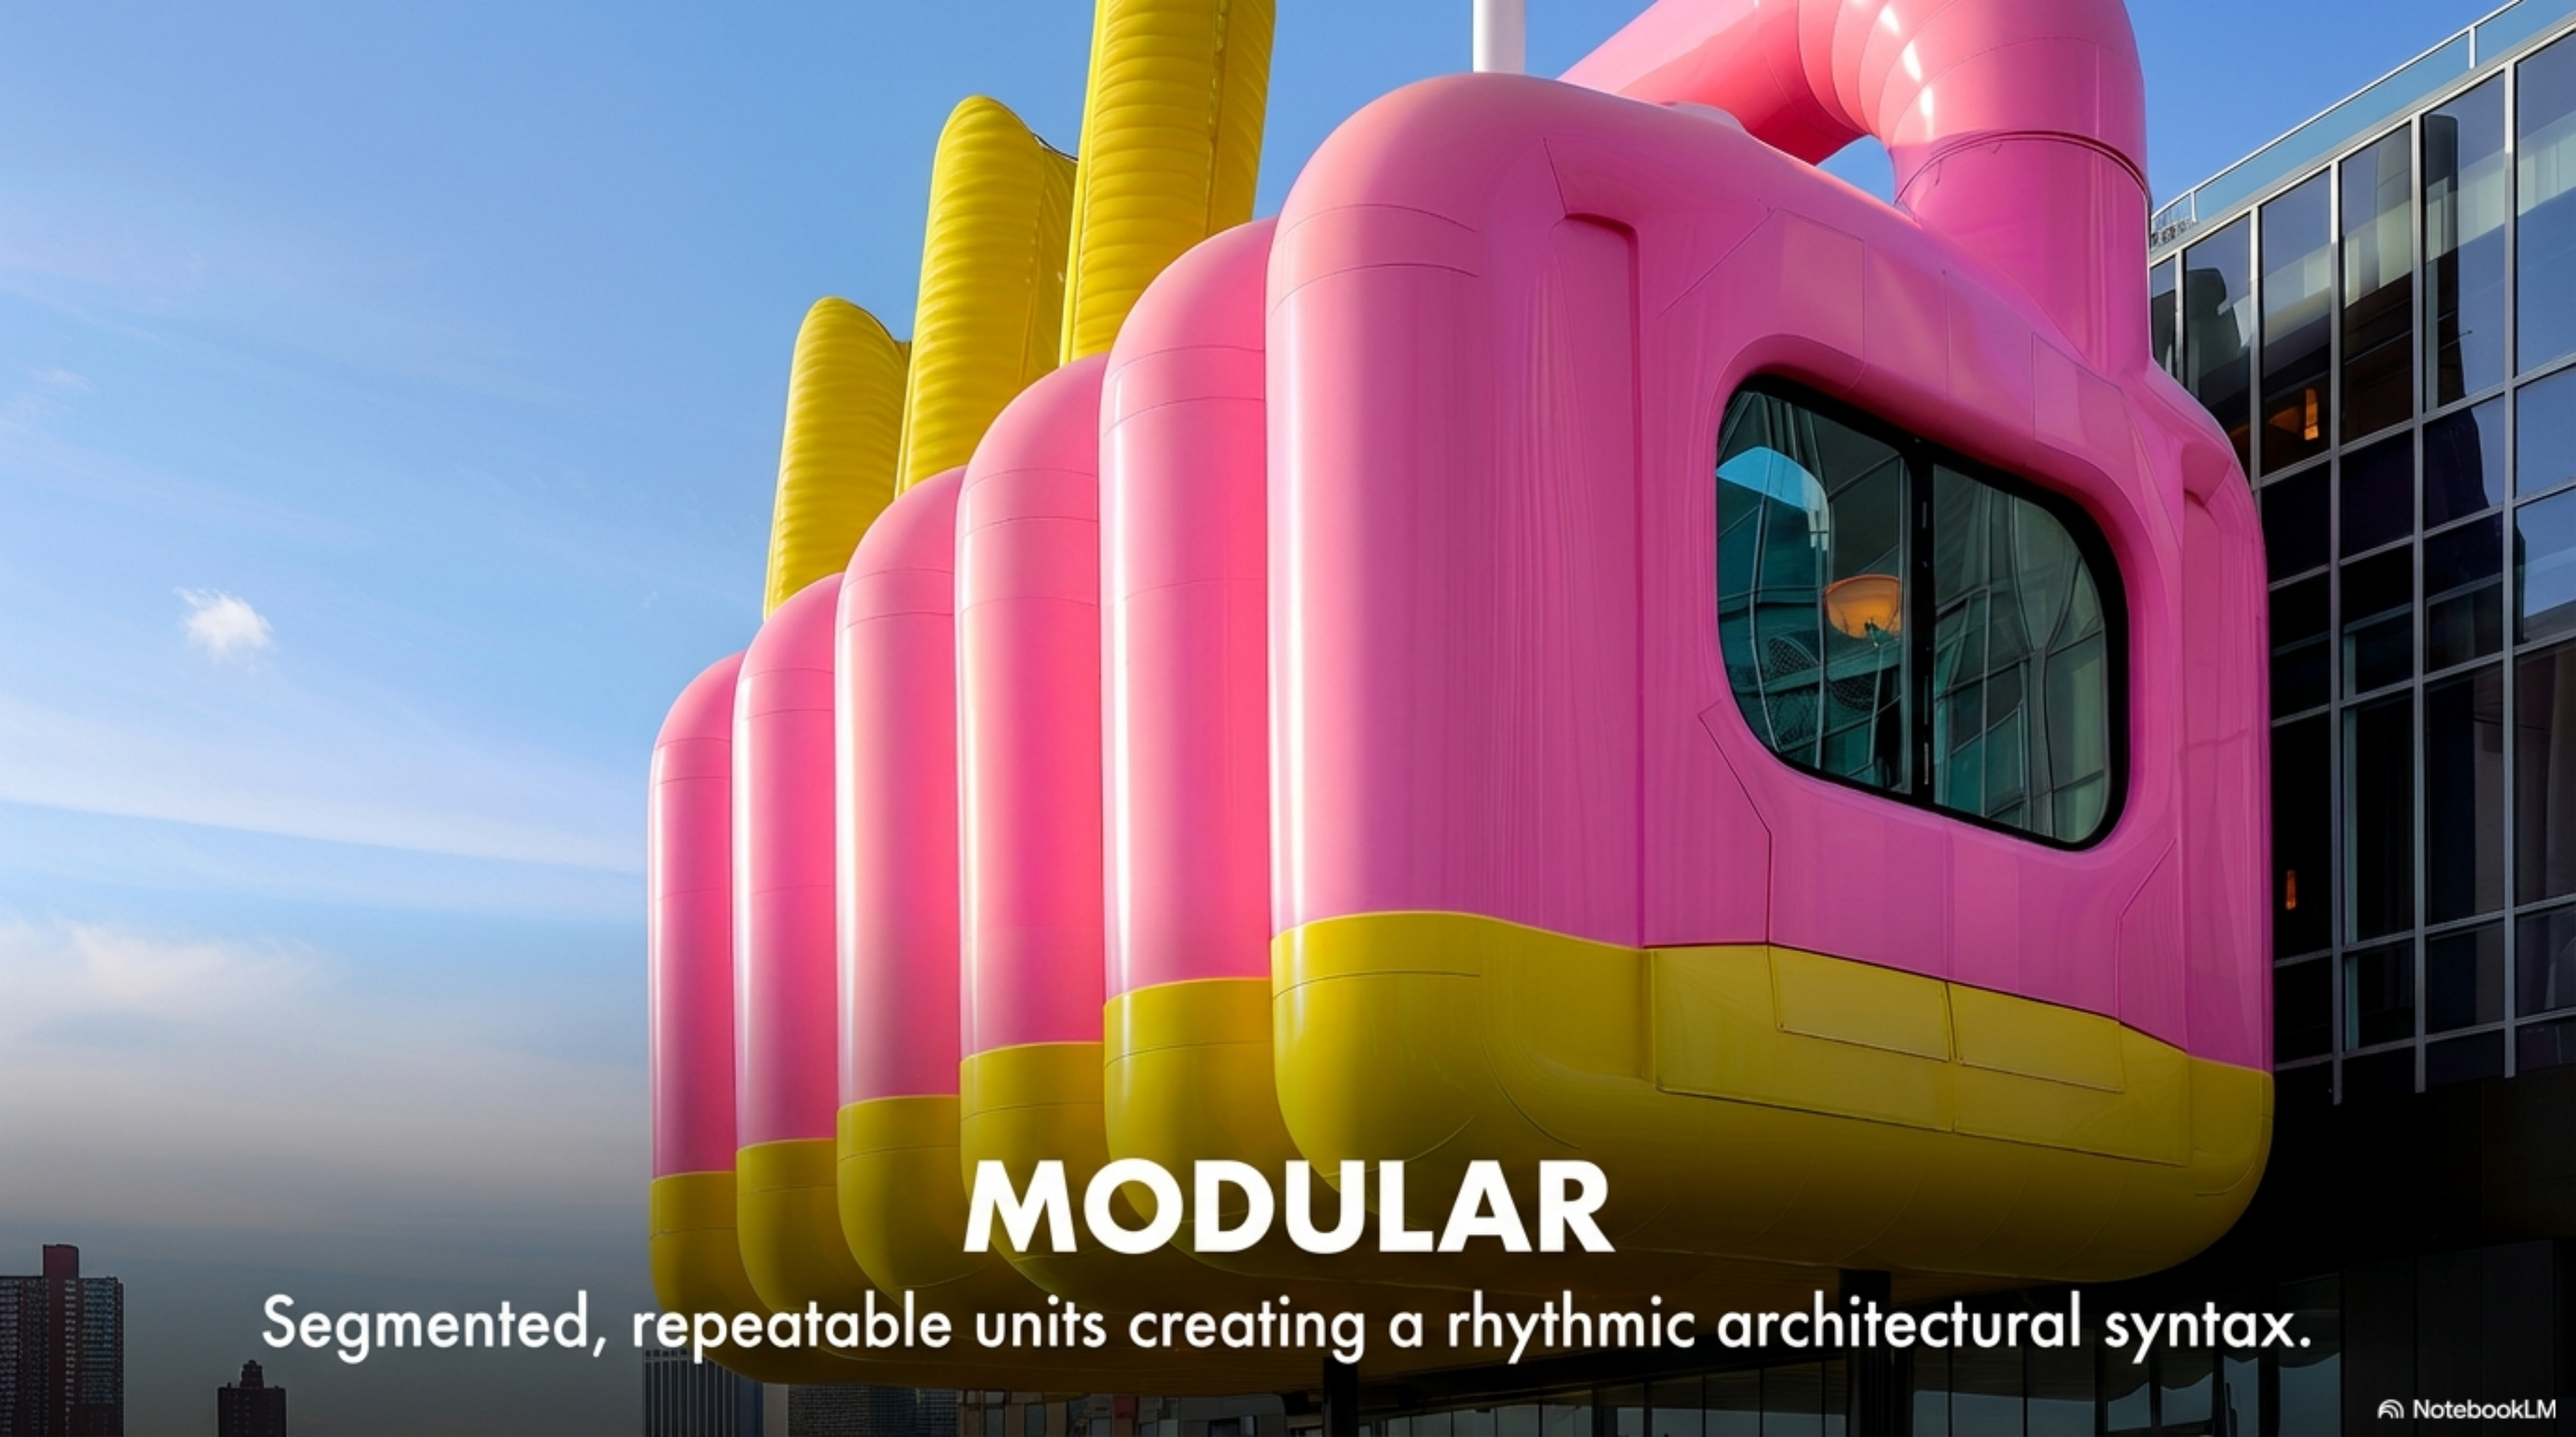
TUBULAR

Continuous cylindrical geometries evoking evoking the language of industrial pneumatics.

NotebookLM

CURVILINEAR
The fluid rejection of right angles in favor of organic, sweeping motion.

NotebookLM



MODULAR
Segmented, repeatable units creating a rhythmic architectural syntax.

NotebookLM

CANTILEVER
Volumetric projection extending
unsupported untond the
beyond structural base.
NotebookLM

TRANSPARENCY
The dissolution of the boundary between interior engagement and exterior context.

NotebookLM

CORRUGATION
Tactile surface articulation providing structural rigidity and depth.

LUMINOSITY
High-gloss materiality that interacts dynamically with ambient light.

NotebookLM

JUXTAPOSITION
The radical contrast of playful biomorphism against the rigid urban grid.
NotebookLM

DESTINATION
Architecture as a catalyst for social gathering and collective joy.
